Graffiti Abatement

Information provided below is for the year 2002. Prior to this year, accurate tracking measures were not in place. Years prior were tracked only by total square footage abated. For years 1999, 2000 and 2001, the average annual square footage abated was 150,000+.

2002	LETTERS SENT	CITY ID'd	REC'D thru COMPLAINTS	TOTAL ABATED
JAN-MAR	53	163	198	623
APRIL-JUNE	199	379	350	721

The new ordinance passed by City Council greatly simplified the abatement notice process. Now only one notice is required as opposed to multiple notices under the old system. Over 400 notices have been posted since the system was put into place. There is no backlog of locations waiting for right of entry forms, however there is a backlog of locations awaiting abatement.

* Instances where number of complaints resolved exceeds number of complaints received are due to resolution of complaints that carry over from previous quarters.

**This number was previously provided as 923.

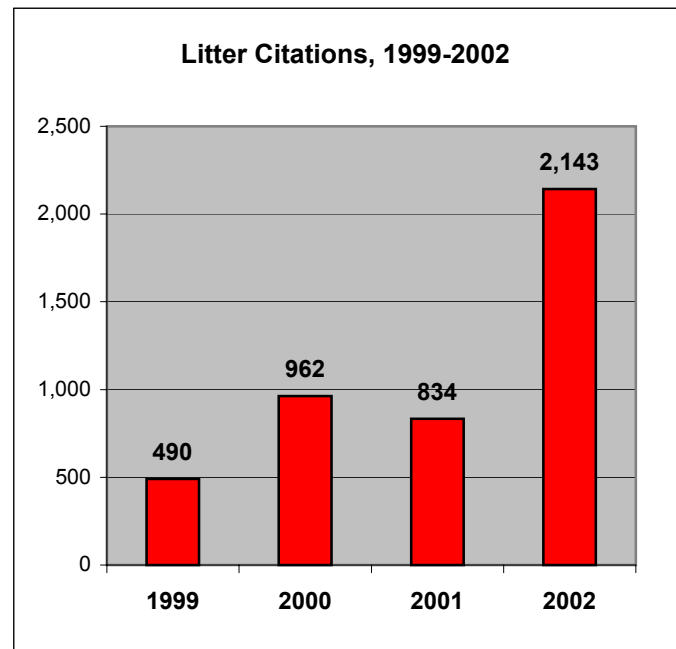

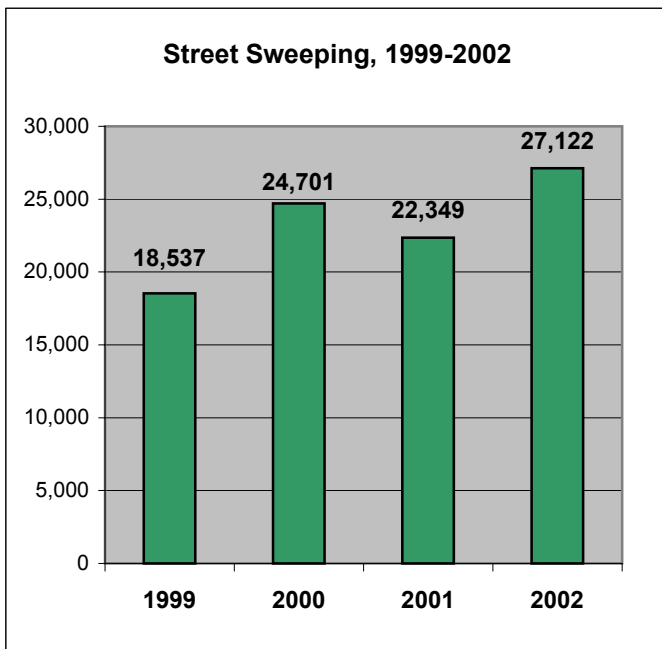

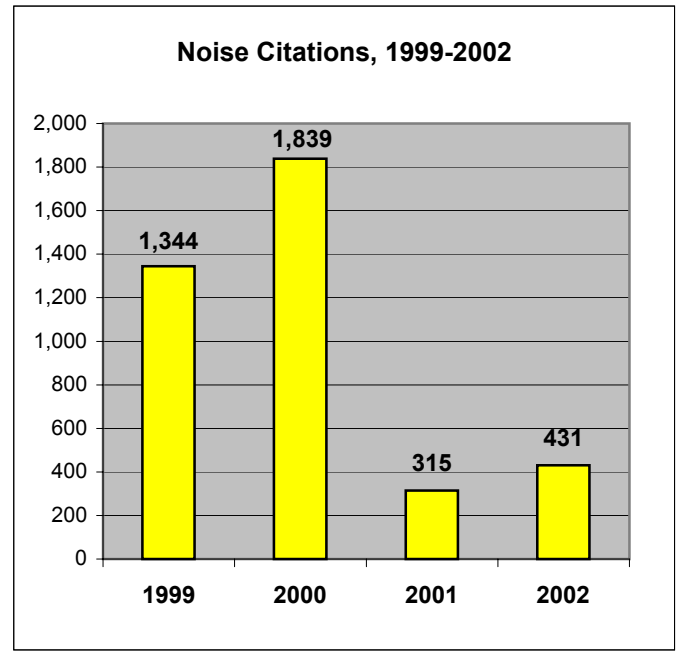

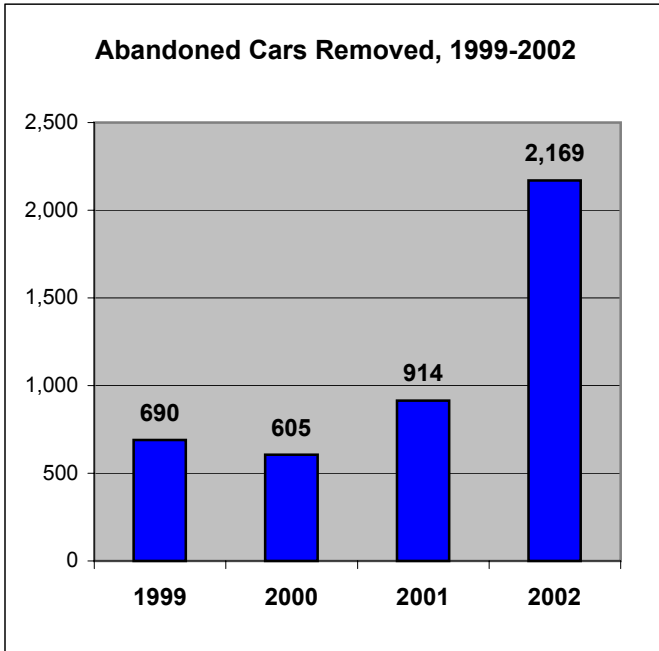

Figure 7:

Effective July 21, 2002, pursuant to revisions to the CMC, staff no longer provides a warning period to property owners for violation abatement. Staff issues Notices of Civil Citation at the time of violation verification. This has resulted in a dramatic increase in the number of citations issued.

Potholes Filled:

The Public Services Department provides a proactive service in filling potholes. The Department has two highly efficient “Spray Injector Portapatchers” (pothole filling machines) that patrol the east and west side of town. The crews operating these machines become very familiar with the poorer condition roadways and are able to seek out and fill potholes before they become hazardous and often time before they are reported to the City. The Department has a performance measure for this effort and in 2001 95% of all potholes were filled proactively and did not have to be reported by citizens.
